Dear Mr. Khristianto,

We wish to submit an original research article entitled "Modified *Congklak* Game in the Teaching of the English Second Conditional: An Experimental Study" for consideration by *Leksika Journal*. We confirm that this work is original and has not been published elsewhere, nor is it currently under consideration for publication elsewhere.

In this paper, we report on the effect of *congklak* game in helping adult learners acquire the English second conditional. We elaborate how *congklak* is adapted and modified into a useful instructional technique and medium to teach the target grammatical structure. It was found that compared to the group with the non-*congklak* game group, the *congklak* game group performed better in the mastery of the English second conditional. This is significant because it enriches the repertoire of instructional techniques and medium in English language teaching by embedding our own culture which is crucial for culture preservation. We believe that this manuscript is appropriate for publication by *Leksika Journal*.

We have no conflicts of interest to disclose and we accept all the terms and conditions of *Leksika Journal* to the best of our knowledge. Please address all correspondence concerning this manuscript to me at my email.

Thank you for your consideration of this manuscript.

Sincerely,

Sundari Purwaningsih
