To: Prof. Budi Setiabudiawan

Editor in Chief

International Journal of Integrated Health and Science

Dear Sir,

Please find the submission of our manuscript,

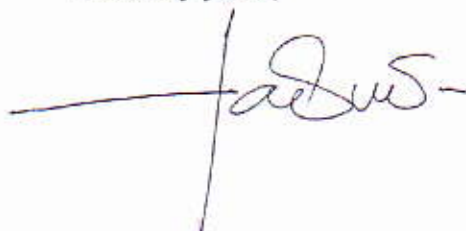

Incidental Findings of Cavum Septum Pellucidum and Cavum Vergae in Dr. Hasan Sadikin Hospital, Bandung, Indonesia: Serial Case Report and Literature Review

which we would like to submit for publication in the International Journal of Integrated Health Science. Herewith, we also attached *3 sets of manuscript (hard copy) and 1 CD (soft copy)*.

In this manuscript, we reported incidental finding of **Cavum Septum Pellucidum (CSP)** and **Cavum Vergae (CV)** from Indonesia for the first time, 13 cases in one year period. Since the existence of CSP and CV usually asymptomatic, clinician seem don't really care to put it in their report. We do hope that the presence of CSP and CV as a common incidental finding can be more revealed in our country and adding the evidence of CSP and CV in world literature.

Author and all co-authors have seen and agreed with the contents of the manuscript and there is no financial interest to report. We certify that the manuscript submitted is an original work and is not under review at any other publication. We thank you for considering our manuscript for publication in the International Journal of Integrated Health Science and look forward to hearing from you at your earliest convenience.

Sincerely yours,

A handwritten signature in black ink, appearing to read 'Ahmad Faried', with a horizontal line extending to the left and a vertical line extending downwards from the middle of the signature.

(Ahmad Faried, MD., PhD)
