Editor in Chief

International Journal of Integrated Health Science

Dear Sir,

Please find the submission of our manuscript,

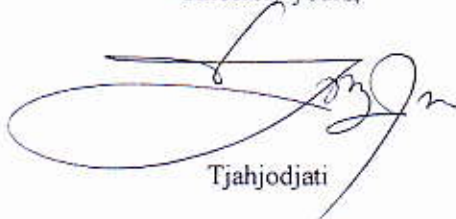

**Ultrasound Guided Fine Needle Aspiration Biopsy (FNAB) in Renal Tumors**

Which we would like to submit for publication in the International Journal of Integrated Health Science. Herewith, we also attached *3 sets of manuscript (hard copy) and 1 CD (soft copy)*.

In this manuscript, The objective of the research is to assess diagnostic accuracy of USG guided FNA in renal tumor. Many of renal tumor patient seek help in late stage, which is a condition that hinder us to perform definitive treatment (Nephrectomy). Several reasons that preclude the patient from definitive treatment are poor general condition and inoperable of the tumor. We will compare result of FNA with definitive histopathologic with endpoint of this research is to emphasize the usage of USG guided FNA in inoperable renal tumor cases so that definitive diagnostic could be made and followed by chemother.

Author and co-author have seen and agreed with the contents of the manuscript and there is no financial interest to report. We certify that the manuscript submitted is an original work and is not under review at any other publication. We thank you for considering our manuscript for publication in the International Journal of Integrated Health Science and look forward to hearing from you at your earlist convenience.

Sincerely yours,

Tjahjodjati
