

ANNALES BOGORIENSES

A Scientific Journal in Life Sciences with Emphasis in
Biotechnology, Molecular Biology and Biochemistry

New Series

Volume 21, No. 1, 2017

Contents

Over Production and Purification of Soluble Recombinant Human Granulocyte Colony Stimulating Factor in <i>Escherichia coli</i> Using Thioredoxin as Fusion <i>Dian Fitria Agustiyanti, Debbie Sofie Retnoningrum, Heni Rachmawati, and Asrul Muhamad Fuad</i>	1
<i>Enterococcus faecium</i> 1.15 Isolated from Bakasam Showed Milk Clotting Activity <i>Wendry Setiyadi Putranto, Kusmajadi Suradi, Hartati Chairunnisa, A. Zaenal Mustopa, Puspo Edi Giriwono, Harsi Dewantari Kusumaningrum, Maggy Thenawidjaja Suhartono</i>	9
Sequential Adaption in Mammalian CHO-K1 Cells Producing Human Erythropoietin <i>Popi Hadi Wisnuwardhani, Endah Puji Septisetyani, Adi Santoso</i>	15
Glucoamylase Production by <i>Aspergillus awamori</i> KT-11IN Solid State Fermentation Using Cassava Peel as Substrate <i>Urip Perwitasari, Nuryati, Ruth Melliawati, and Yopi</i>	21
Comparison of Gene Expression Between Two Types of Anti-EGFRVIII SCFV Antibodies Having Different Variable Domain Orders in <i>Escherichia coli</i> <i>Kartika Sari Dewi, and Asrul Muhamad Fuad</i>	29
