ABSTRACT

“Elemental Raiders” is created using Unity. “Elemental Raiders” is a shooting game which features four basic elements of water, fire, air, and earth. Objects included in the game are enemies, power-ups, and environment. Testing is done with questionnaires filled out by 40 respondents. Results had shown that respondents enjoyed the element featured in this game and gained new experience.

Keywords

2D game, Elemental Raiders, shoot ‘em up game, Unity.
