

ANNALES BOGORIENSES

A Scientific Journal in Life Sciences with Emphasis in
Biotechnology, Molecular Biology and Biochemistry

New Series

Volume 21, No. 2, 2017

Contents

Optimization of Substrate and Starter Cell Concentrations for Dibenzothiopene Biodegradation by Indigenous Marine Bacteria <i>Mauricauda olearia</i> LBF-1-0009, <i>Alcanivorax xenomutants</i> LBF-1-0018, and <i>Stakelama pacifica</i> LBF-1-0031 <i>Elvi Yetti, Ahmad Thontowi, and Yopi</i>	38
Optimization of Somatic Embryogenesis Induction of Cassava (<i>Manihot esculenta</i> Crantz) <i>Idha Susanti, Suharsono, Utut Widyastuti, Ulfah Juniarti Siregar and Aris Tjahjoleksono</i>	45
Improvement of HER2^{1655V} TARMS-PCR Performance by DNA Quality Analysis <i>Bugi Ratno Budiarto, Azamris, and Desriani</i>	52
Pectinase Production and Clarification Treatments of Apple (<i>Malus Domestica</i>) Juice <i>Cocok Ana Maryani, Fahrurrozi and Anja Meryandini</i>	63
ILE655VAL Genotyping Study of HER2 - Positive Breast Cancer of Patients From Padang - Indonesia With High Resolution Melting Technique <i>Dwi Wulandari, Azamris, Isna Nurhayati, M Ali Warisman, Bugi Ratno Budiarto and Desriani</i>	69
